Project objectives

TREASoURcE aims to initiate systemic change by developing technologies and systemic CE solutions in cities and regions via setting up exploitation, replication and transferable practices.

The developed solutions will be implemented together with companies, societies (including citizens, consumers, communities and regional actors) and experts in the field.

Product and material circulation in the Nordics and Baltic Sea Region is expected to increase significantly.

Demonstration areas

Finland, Norway,
Sweden, Denmark

Replication areas

Estonia, Latvia,
Lithuania, Poland,
Northern Germany

TREASoURcE is part of the European Union's Circular Cities and Regions Initiative (CCRI) that seeks to support the implementation of local and regional circular economy solutions.
