Guidance on the use of the document

The document consists of 5 sections and columns.

1. **Category:** First there is a section indicating which *category* of procurement the wording and measures relate to.
2. **Objective:** The second column shows a smart measurable objective your organization can use in the strategy.
3. **What will we do:**

The third column shows the wording of a concrete measure you will set in motion to implement the objective – what your organization will do to reach the goal.

4. **How will we do it:**

The fourth column indicates wordings on recipes, requirements, and criteria that your organization will utilize to implement the measure.

5. **How will we monitor it:**

The fifth column gives wordings of indicators that your organization can utilize to report and monitor the performance of the objective and corresponding measures from the strategy.
